

AMENDMENTS TO THE CLAIMS:

Claim 1-20 (cancelled).

Claim 21. (currently amended). An interactive stuffed animal toy system, comprising:
a stuffed animal toy;

first means remote from said stuffed animal toy for transmitting first electronic signals carrying first audio input from a first source remotely located relative to said stuffed animal toy, for receiving second electronic signals carrying second audio input from a second source located proximal to said stuffed animal toy transmitted from said stuffed animal toy, and for deriving from said second electronic signals said second audio input;

said stuffed animal toy including second means for transmitting said second electronic signals carrying said second audio input from said second proximally located source to said first source remotely located relative to said stuffed animal toy for receiving said first electronic signals carrying said first audio input from said first source remotely located relative to said stuffed animal toy, and for deriving from said first electronic signals said first audio input;

voice modulating means operatively connected with said first means;

said stuffed animal toy including motion means for moving at least one predetermined part of said stuffed animal toy in response to first electronic signals carrying said first audio input from said first remotely located source to said stuffed animal toy in synchronism with said first audio input;

said first means including two wireless radios, one of which is maintained in a receive mode, and the other of which is maintained in a transmitting mode;

said second means including two wireless radios, one of which is maintained in a receive mode, and the other of which is maintained in a transmitting mode; ~~and~~

said voice modulating means operably connected with said first means for disguising said

first audio input; and

said second means includes a transmitter, a transmitter antenna, a receiver, a receiver antenna, and an amplifier, all of which are disposed on a single circuit board and/or in a protective case disposed in the interior of said stuffed animal toy.
